# Sysoft Announces AI Powered NextGen eProcurement, Contract management, Spend Analytics, ESG Comploiance, and Supply Chain Intelligence SaaS Portals

NY City, June 2, 2025 – Sysoft Corporation announced today the release of AI Powered NextGen eProcurement, Contract management, Spend Analytics, ESG Compliance, and Supply Chain Intelligence SaaS Portals.  The Software as a Service (SaaS) Portal provides AI driven procurement insights from a Spend Analytics system enabling intelligent procurement and supply chain management.

Current and prospective users of the Sysoft products and SaaS environments include Corporations, Cities, Counties, States, Federal Agencies, Schools, Universities, and NGOs.  The SaaS product integrates with major ERP Systems, Office Productivity Tools, and other Sysoft products such as Contract Management and Spend Analytics system though an integrated repository.

**About Sysoft Corporation**
Sysoft Corporation started operations in 1991 providing software products, services, and training for GenAI, data science, eBusiness, mobile applications, device implementations, procurement sourcing systems, contract monitoring tools, clinical data science, big data predictive analytics, intelligent systems for aerospace, investment banking, supply chain and more.
